**Industrial Pressure Washer Units**

### GAS UNITS

**3,000 PSI @ 5 GPM**

Hot And Mighty MDC-3005-0K5G
- Hot Or Cold Water Pressure Washer
- 4.8 GPM @ 3500 PSI
- Or Two Guns Each Operating 3 GPM @ 3500 PSI
- 18 HP Kohler Motor
- Belt Drive Tri-Plex Oil Bath General Pump
- Pressure Regulating Unloader For Dual Gun Operation
- Bypass Line Back To Holding Tank
- 3600 Psi Safety Relief
- 12v Burner
- Adjustable Thermostat
- High Pressure Soap Injection
- Low Pressure Soap Injection
- 250˚ Wet Steam Operation / Internal Steam Valve
- Hour Meter

**3,500 PSI @ 6 GPM**

Hot And Mighty MCS-3506-0H6G
- Hot Or Cold Water Pressure Washer
- 5.7 GPM @ 3500 PSI
- Or Two Guns Each Operating 3 GPM @ 3500 PSI
- Honda 630 cc Motor
- Belt Drive Tri-Plex Oil Bath General Pump
- Pressure Regulating Unloader For Dual Gun Operation
- Bypass Line Back To Holding Tank
- 3600 Psi Safety Relief
- 2600 Watt 110v Generator Duplex G.F.C.I. Outlet
- Adjustable Thermostat
- High Pressure Soap Injection
- Low Pressure Soap Injection
- 250˚ Wet Steam Operation / Internal Steam Valve
- Hour Meter

### DIESEL UNITS

**3,000 PSI @ 8 GPM**

Hot And Mighty MDS-3008-0K8G
- Hot or cold water pressure washer
- 8 gpm @ 3000 psi
- Or two guns each operating 4 gpm @ 3000 psi
- Kohler 27 hp motor

**3,500 PSI @ 6 GPM**

Hot And Mighty MDS-5357-0K6G
- Hot or cold water pressure washer
- 6 gpm @ 3500 psi
- Or two guns each operating 3 gpm @ 3500 psi
- Lombardini 24 hp motor

**3,000 PSI @ 10 GPM**

Hot And Mighty MDS-3010-0K10G
- Hot or cold water pressure washer
- 10 gpm @ 3000 psi
- Or two guns each operating 5 gpm @ 3000 psi
- Lombardini 27 hp motor

HOT AND MIGHTY'S
CUSTOM EQUIPMENT SHOP
SEE MORE AT CUSTOM.HOTANDMIGHTY.COM
CUSTOM SIZES

Custom size, not a problem. We will work directly with our trusted trailer manufacturer to build a mobile cleaning unit that fits your specific need. Height restrictions, length requirement and other specifications can be met.

CUSTOM OPEN DECK CONFIGURATIONS

Our trailer units can be built with an unlimited amount of options and accessories: exterior ports, interior heating, poly walls, rubber floors, crew cabs, ladder racks and anything else you can think of. You want a stripped down version? No problem, Give us a call.

CUSTOM SPECIALTY TRAILERS

Our friends in warm and dry climates love our open deck units. No walls mean unrestricted access to your equipment. These mobile cleaning systems are easily customized. Arrange the unit the way you want it or let us use the tried and true layouts we have used for years. Consider adding a Hot And Mighty™ WR2 wash water recovery and recycling system to your unit. These systems sit well in any open deck trailer and will bring any business into EPA environmental compliance.

Over the years we have created a wide variety of specialty trailers. From trailers units with boiler systems installed for healing frozen oil field piping to trailer units that use a custom built recovery and recycling system used to remove sol based paint from on street advertising at the Tour de France. Challenge us with your problem and let us be your solution.
OIL FIELD THAWING AND FREEZE PREVENTION

CALL FOR QUOTE
BUILT TO ORDER, CALL (800) 897-7515
Our oil field boiler systems utilize boiler heated, environmentally friendly glycol that is recirculated through a closed loop hose line system. The recirculated fluid heats the hose line, which can be wrapped around any frozen valve/wellhead to be thawed quickly. This unit is self-contained and offers a safe way to thaw versus conventional high temperature steaming methods.

The boiler system does not require a constant fresh water source and is much more fuel efficient than typical steam coils. This method eliminates the need to transport water to remote sites for steam thawing. Remote operation options are available. This system can be left unmanned in remote areas with confidence.

**CUSTOM BOILER SYSTEMS**

Boilers can run off a local electrical power source or a supplied generator system. Boiler heat source is diesel or propane. Boiler BTU varies depending on customer needs/specifications. Supply and installation of an oil fired boiler skid package. These systems come with two heavy duty cox auto-rewind hose reels with hose guide and motor including controls.

**PUMPING UNIT**

**TGP MODEL 550S**
- 5.0 GPM @ 5000 PSI
- 20 HP Electric motor
- 240 V 3PH
- Pressure gauge/Hose/Regulators
- Heavy-duty roll cage construction
- 100 Gallon methanol storage tank
- High pressure shutoff

**GENERATOR**

Power your boiler system for extended periods with your own power supply. We can provide installed generator equipment to meet your needs.

YOUR NEXT STEP

Hot And Mighty™ Wash Water Recovery And Recycling Systems - Orange is the new green.

Hot And Mighty™ WR2 Wash Water Recovery And Recycling Systems - The Future Is Now
Recover and reuse your wash water with a Hot And Mighty WR2.

Hot And Mighty™ wash water recovery and recycling systems are here to bring your enterprise into EPA compliance. Our WR2 has the vacuum power to operate 2 vacuum recovery surface cleaners at the same time. This recovery is enhanced by our state of the art methods to either treat and discharge or reclaim and reuse your wash water.
Our recycling systems provide filtering to 20 microns or lower depending on your needs. That’s enough to reuse in your pressure washer. The WR2 system utilizes our unique aluminum oil/water separator which then pass the water through a multi-stage filtering system and then finishes the recycling process by pushing the water through one of two polishing cartridge filters into your water holding tank.

We can set your system up to treat and discharge depending on your local environmental laws. These systems are customizable and can be built with more filters for higher micron filtering.

The WR2 can be built directly to your mobile cleaning deck or installed on our platform skid mounting two 200 gallon water tanks below the system. This is a great space saving option for anyone wanting a more compact trailer.
**Hot And Mighty™ WR2: Recovery And Recycling**

**Hot And Mighty™ Recovery Vac**
- Recovery Vacuum: 450 CFM
- Motor: Honda 630 cc GX Series Motor
- Blower: Gardner Denver
- Generator: Yes
- Auto Pump Out: Yes
- Sand Interceptors: Yes (2) Stainless Steel w Filters
